IMPORTANT NOTES:

- Our representative areas are operated on strict quotas and cannot offer all species to every client. Please ensure at the time of booking your safari that the specific species you wish to hunt are available. Particularly the species marked above with **. The species marked with ## are available in very limited numbers and certain areas – by special arrangement only.
- We operate primarily in the Save Valley Conservancy, however, we have access to numerous other prime concessions throughout Zimbabwe, thus enabling us to offer the wide range of species listed above. At the time of booking, please inquire as to where the respective species you wish to hunt occur, as this may well necessitate an additional air charter to another hunting area.

SUNDRY COSTS - (Additional costs over and above daily rates, trophy fees and transfer costs)
